PRODUCT DATASHEET

VideomentheCloud

The Collaborative Platform for Fast, Secure Exchange of Media Files

BASED ON SIGNIANT'S MEDIA SHUTTLE SOLUTION

VideomentheCloud provides custom portals accessible via login and password for sending content over IP or making content available on VideomentheCloud storage hosted in France.

VideomentheCloud supports your media workflows across multiple use cases:

Production

Accelerate rush transfers between production and post-production.

Broadcast delivery

Streamline the delivery of broadcast-ready files to broadcasters

Archiving & backup

Keep media content securely stored and accessible

Remote Collaboration

Simplify file sharing between teams and remote sites

Bminty
